DETAILED ACTION

1. The Applicant filed a "Request for Continued Examination" (RCE) received April 7, 2008 with which he presented an Information Disclosure Statement (IDS) containing patent literature. The Examiner has reviewed this literature and found no prior art which would disclose the invention of the Applicant.

Allowable Subject Matter

2. Claims 1-18 are allowed.

3. The following is an examiner's statement of reasons for allowance (which is the same as given in the first Office Action and repeated here):

With respect to the independent claims 1, 11, and 15, prior art fails to disclose or make obvious, in combination with other recited features of the claim limitations, a method of mass spectrometry comprising a plurality of cycles, each cycle comprising the steps of preparing ions to be analyzed by a mass spectrometer; and using a detector of the mass spectrometer to collect data from representative of the quantities and masses of the ions prepared during each of its cycles.

The novel aspect of this invention, which is not disclosed in prior art, is that the ions are prepared during each of its cycles (during each period of the waveform).

The dependent claims 2-10, 12-14, and 16-18, are allowable by virtue of their dependence upon the independent claims 1, 11, and 15, respectively.

Conclusion

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
